

## **Is your child experiencing symptoms suggestive of COVID-19 infection?**

## **Is your child participating in virtual learning?**

If your child is experiencing any of the following symptoms suggestive of a COVID-19 infection,

- Sore throat
- Fever greater than 100.4F
- Frequent cough
- Chills
- Muscle aches
- Loss of taste or smell

Your child can receive the BinaxNOW COVID-19 Rapid Antigen Test in a timely fashion at no cost to you. This test involves a quick and painless swab to the front of the nose. The swab, which is similar to a Q-tip is inserted a small distance of one half inch into both nostrils. Results are available in 15 minutes.

### **Mobile Sites at School District of Philadelphia Schools**

The hours of operation are **Monday** through **Friday** from 9am to 6pm. Students in both hybrid and virtual learning can be tested at these sites at no cost. Appointments are preferred but not required. Register at <https://secure.dentrustocs.com/sdp/testing> or text TESTPHL to 72345.
